Running since 1984, the German Socio-Economic Panel study (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:
Series A – Survey Instruments (Erhebungsinstrumente)
Series B – Survey Reports (Methodenberichte)
Series C – Data Documentation (Datendokumentationen)
Series D – Variable Descriptions and Coding
Series E – SOEPmonitors
Series F – SOEP Newsletters
Series G – General Issues and Teaching Materials
The SOEP Survey Papers are available at http://www.diw.de/soepsurveypapers

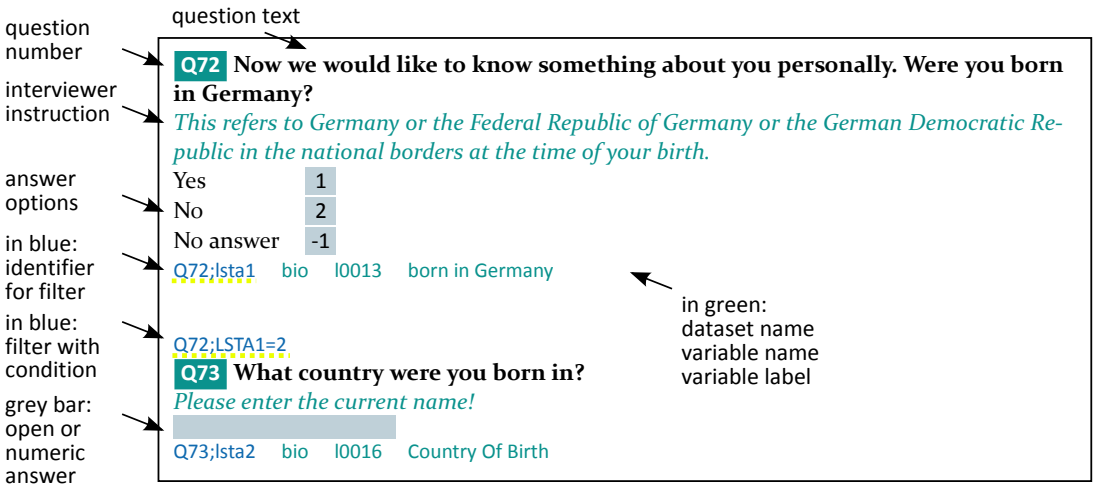
Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.



Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines serveral variables or informations are stored in more than one data set.
The *routing by filters* is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.
This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of serveral variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.
Phrases that are not alreday translated in English are displayed in German and preceded by [de].

Q6 Is the respondent the head of household, the person who answers the questions about the household?

The questions on the household should be answered by the person who knows most about the concerns of the total household and the other household members. Important Note: The questions on the household have to be filled out once for each household. Without this question part all other questions would be useless for data analysis!
