Erratum to:
J Labour Market Res. (2013) 46:283–305
DOI 10.1007/s12651-013-0142-1

In the original publication the last two answer scales depicted in Fig. 1 had both left and right endpoints labelled as “Very unlikely”. It should read “Very *likely*” at the right endpoints of the scales.

We apologise for this oversight.

If you accepted the offered job, your net household income will **rise to 3,510 euros**. The working hours are approximately **20 hours** per week, and the job requirements are **significantly below** your professional skills. The job offers **many opportunities for internal promotion** and is **limited to 3 years**. The one-way trip from your current place of residence to the location of the job is approximately **6 hours**. The labour market at the new location is **worse** than at your current residence. Finding appropriate housing there will require **considerable effort**.

a) **How attractive** is the job offer to you?

Very unattractive ○ ○ ○ ○ ○ ○ ○ ○ ○ ○ Very attractive

b) **How likely** would you be to **accept the offer**?

Very unlikely ○ ○ ○ ○ ○ ○ ○ ○ ○ ○ Very likely

c) **How likely** would you be to **completely move to the new location**?

Very unlikely ○ ○ ○ ○ ○ ○ ○ ○ ○ ○ Very likely

Fig. 1 Vignette Example (English translation, varied dimensions highlighted)
