## Erratum

After publication of the original article (Zhao et al., 2016), the author has noticed an error in the following sentence of the second paragraph in Concluding Remarks section:

“For instance, while the original value of blockchain is to decentralize organizations by running Bitcoin transactions with a bank, new blockchain applications are more likely applied in centralized or partially centralized organizations such as a national bank.”

The word ‘with’ should be corrected to ‘without’.

We apologize for any inconvenience caused.
