Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or information are stored in more than one data set. The *routing by filters* is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].

Q81 Now we have additional questions about your experiences with psychological counseling and therapy.

Q82 Have you ever heard or read about psychological therapies via the internet?

Internet-based psychological therapies (IPT) comprise a broad variety of types of treatment for relatively easy treatable depressions and anxiety disorders of a low or mid-grade. Following, we provide three illustrations of different types of IPT:

1. Internet-based unaccompanied treatment by self-help (without therapeutic assistance): The patient attends a structural program of self-help using a smartphone or computer for several weeks. This program incorporates specific tasks, exercises and lessons related to the problem (without personal feedback).

2. Internet-based accompanied treatment by self-help (with therapeutic assistance): The patient attends a program of self-help online under a guidance of a therapist. The communication with the therapist takes place selective via text-based feedback per email or chat.

3. Internet- or video-based psychotherapy (videoconference with a therapist): The person in therapy and the therapist communicate via webcam. Like in a conventional therapy session they meet at a specific date by appointment using verbal and non-verbal communication and feedback during the session.
Q83 Did you ever make use of psychosocial or psychological counseling online?
If the respondent has a question on the difference of counseling and therapy: Psychotherapy is covered by the medical insurance while counseling is not. Counseling takes less time than a psychotherapy and often it finishes after one session. Online counseling can also be anonym in specific fora on the internet.

Q84 Have you ever made use of an ambulant or in-patient psychotherapy?
In the case of questions: In an ambulant psychotherapy you live at home and visit a psychotherapist for specific sessions. An in-patient therapy requires you to stay at a facility over the day and partially overnight. The hybrid form is a day hospital which combines the in-patient part of staying over the day with overnight stays in the patient’s living environment.

Q119 In the last years, many discussions broached the issue about the difficult financial situation of countries like Greece, Spain or Portugal. We ask you to share your opinion generally. Please specify, whether you agree with the following statements:

*Please answer using the following scale. The value 1 means: Does not apply at all. The value 7 means: Does fully apply. You can weigh your answer using the steps in between. Please show list 119!*
In times of crisis, Germany should financially help other member states of the European Union which are in considerable economic difficulties.

In times of crisis, Germany should financially help European countries outside the European Union which are in considerable economic difficulties.

Q120 Please imagine the following invented situation. To fight against the budget crises of EU countries in a pinch, in the future all member states have to give a financial contribution. This contribution will be paid by every person within the EU who has an own income. The contribution will be collected permanently and only for fighting the crises of EU countries in a pinch.

What do you think about the following proposals?

Please answer using the following scale. The value 1 means: Does not apply at all. The value 7 means: Does fully apply. You can weigh your answer using the steps in between. Please show list 119!

Every person in the EU should pay ...

3 percent of the gross income, but at least 30 euros per month.

2 percent of the gross income, but at least 20 euros per month.

0.5 percent of the gross income, but at least 5 euros per month.
Q121 In general, many people demand from countries in a pinch to put their budget in order to receive financial assistance from the EU. 

To what extent do you agree with the following suggestions?  

Please answer using the following scale. The value 1 means: Does not apply at all. The value 7 means: Does fully apply. You can weigh your answer using the steps in between.

Please explain if requested:

Value added tax is a tax on consumption. If you as an end-consumer buy a product, this tax is already part of the price. Property tax or wealth tax has to be paid by people who own large financial assets. Germany currently has no such tax.

Title08 Now we ask you about discrimination. Discrimination means that a person is treated worse than others including specific reasons for this behavior and no factual justification. People use different modes of discrimination like insult, ostracism, sexual harassment up to violence. Rules and laws disadvantaging people are also discrimination.

Q122 Have you been the target of discrimination in Germany within the last 24 months? What kind of discrimination was it?
Because of racist attitudes of the other, my belonging to a specific ethnic group or background from a foreign country?  
Because of my sex?  
Because of my gender identity, e.g. transsexual or intersexual?  
Because of religion, ideology or philosophy of life?  
Because of a disability or a chronic disease?  
Because of a higher age?  
Because of young age?  
Because of my sexual orientation, e.g. gay, lesbian, bisexual?  
Because of a low education level?  
Because of a low income?  
Because of another reason?

**Q123** For what reason?

**Q124** How often did you experience discrimination of the following types in Germany within the last 24 months?
