**DATA-GUIDE TO OECD EXPORTS**

## ABSTRACT

---

**Rouvinen Petri, Data-guide to OECD Exports, Helsinki: ETLA, Elinkeinoelämän Tutkimuslaitos, The Research Institute of the Finnish Economy, 1992, 75 s. (Keskusteluaiheita, Discussion Papers, ISSN 0781-6847; no. 426).**

This data-guide is published as a part of *THE COMPETITIVE ADVANTAGE OF FINLAND* project, which is organized by Etlatieto Ltd and financed mainly by the Finnish National Fund for Research and Development (SITRA) and the Research Institute of the Finnish Economy (ETLA).

The data was acquired from the OECD foreign trade database. It was ordered as follows: export values of all OECD countries according to SITC revision 2 in 5-digit level (or 4-digit, when 5-digit is not available); years 1980, 1985 and 1990. Year 1990 had to be converted from SITC revision 3 to 2. This was done by the OECD department of economics and statistics.

*Part one* of the paper lists the 50 most important export commodities of each OECD country in terms of both percentage share of country's exports and OECD export market share. *Part two* gives some additional information about the market situation for the largest (in terms of export share) Finnish export commodities.

We have discovered various pitfalls in this data due to the revision conversion done with a simple code key. One example, which affects at least the Finnish list of major export commodities, is the lack of 1990 export values of SITC rev. 2 commodity 2482x (sawn lumber of coniferous species). There are some cases where SITC revision 3 is actually less detailed than revision 2, and this causes problems when data is converted. If a commodity that should be listed somewhere seems to be missing, please check appendix A, which lists the SITC-codes of potential "trouble makers". There are quite a number of these problematic figures, but we wanted to use revision 2 figures in order to gain some time perspective. Recently we received SITC revision 3 data for 1990 but these figures are incompatible with earlier years. We are planning to publish a revised version with the latest revision 3 export figures in the near future.

**KEY WORDS:** exports, OECD statistics, market share

## TIIVISTELMÄ

---

**Rouvinen Petri, Data-guide to OECD Exports, Helsinki: ETLA, Elinkeinoelämän Tutkimuslaitos, The Research Institute of the Finnish Economy, 1992, 75 s. (Keskusteluaiheita, Discussion Papers, ISSN 0781-6847; no. 426).**

Tämä keskusteluaihe on julkaistu osana *KANSALLINEN KILPAILUKYKY JA TEOLLINEN TULEVAISUUS* -projektia, jota koordinoi Etlatieto Oy ja jonka päärahoittajina ovat Suomen Itsenäisyyden Juhlarahasto (SITRA) ja Elinkeinoelämän Tutkimuslaitos (ETLA).

Käytetyt tilastot on hankittu OECD:n ulkomaankaupan tietokannasta. Se tilattiin seuraavan määrittämisen mukaan: kaikkien OECD-maiden vienti SITC:n revisio 2 mukaisina 5-numerotason arvoina (tai 4-numerotasolla, jos 5-numerotason lukua ei ole saatavissa) vuosilta 1980, 1985 ja 1990. Vuosi 1990 on konvertoitu SITC:n revisio 3:sta revisioon 2. Tämän työn on suorittanut OECD:n kansantalouden ja tilastotieteen osasto.

*Osassa yksi* luetellaan kunkin OECD-maan 50 tärkeintä vientihyödykettä sekä sen osuuden mukaan, mikä ko. hyödykkeellä oli maan viennistä, että maan OECD:n vientimarkkinaosuuden mukaan. *Osassa kaksi* annetaan lisäinformaatiota Suomen 50:stä suurimmasta (viennin arvon mukaan) vientihyödykkeestä.

Huomasimme erinäisiä revisiokonversiosta johtuvia virheitä hankimassamme aineistossa. Eräs esimerkki, joka vaikuttaa ainakin Suomen suurimpien vientihyödykkeiden luetteloon, on vuoden 1990 viennin arvojen puuttuminen SITC:n revisio 2:n hyödykkeeltä numero 2482x (havupuusahatavara). On joitain kohtia, joissa revisio 3 on itseasiassa karkeampi kuin revisio 2, jolloin konversiossa on erinäisiä ongelmia. Jos tietty vientituote näyttää puuttuvan jostakin kohtaa, saattaa se olla yksi ongelmallisista hyödykkeistä. Näiden hyödykkeiden SITC-koodit on listattu liitteessä A. Ongelmallisia kohtia on suhteellisen paljon, mutta halusimme käyttää revisio 2:n mukaisia lukuja, jotta tarkasteluun saataisiin hieman ajallista ulottuvuutta. Saimme äskettäin revisio 3:n mukaisen aineiston vuodelta 1990, mutta nämä luvut eivät ole vertailukelpoisia aiempien vuosien kanssa. Myöhemmin tulemme julkaisemaan korjatun version, joka sisältää viimeisimmät vientiluvut revision 3 mukaisina.

**AVAINSANAT:** vienti, OECD tilastot, markkinaosuus

### Appendix

None of the OECD-countries had exports in the following commodity subgroups

**Contents of data table: left-hand side of the double page**

1. A country's 50 most important export products in 1990 are listed on this page. Products are expressed in SITC 5-digit terms (or 4-digit when 5-digit not available, SITC revision 2).

2. OECD country's name and its number code. More detailed figures on Finland and its foreign trade are presented after the data tables.

NR	CODE	NAME	% OF EXPORTS			VALUE		M-SHARE

32	SUM OF TOP 50 EXPORT COMMODITIES IN TERMS OF EXPORT SHARE IN 1990			45.54%	34.94%	30.84%	10931955	2.10%

3. The sum of a country's commodity exports in SITC 4- or 5-digit terms, which may not add up to export figures in other sources.

4. Market share figures presented here are country's total exports divided by the total OECD exports.

5. If not specified otherwise, the data source is the OECD's foreign trade data bank. The year 1990 has been converted from SITC rev. 3 to rev. 2 by OECD Department of Economics and Statistics.

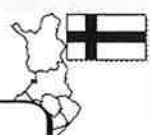

6. NR = n:th biggest export commodity, CODE = SITC rev. 2 identification code of 4- or 5-digit subgroups, NAME = commodity name (for full names cf. UN Statistical Papers, Series M, No. 34/Rev. 2, 1975)

7. % OF EXPORTS: = percentage of the specified commodity of the country's total exports in 1990, 1985 and 1980, VALUE = export value (1000 USD) in 1990, M-SHARE: = OECD exp. market share

8. Sum of top 10/25/50 export commodities ranked according to 1990 export shares. Note that figures for 1985 and 1980 do not necessarily represent column sums due to ranking changes.

9. The source for GNP and population figures is The World Bank Atlas 1991. Capital and labour information are from OECD Historical Statistics 1960 - 1990.

10. Educational information is from World Development Report 1991, World Bank. Tertiary = ratio of pupils enrolled in post-secondary schools and universities by the population in the 20-24 age group.

3. Country's OECD export market share in the specified commodity; a fair approximation of world trade market share in manufactured goods but may be significantly biased when considering e. g. foodstuffs or raw materials.

4. Breakdown of the country's exports by SITC rev. 2 sections. Counted as a sum of 5-digit (or 4-digit, when 5-digit not available) commodity export figures under each section.

Elinkeinoelämän Tutkimuslaitoksen julkaisemat "Keskusteluaiheet" ovat raportteja alustavista tutkimustuloksista ja väliraportteja tekeillä olevista tutkimuksista. Tässä sarjassa julkaistuja monisteita on rajoitetusti saatavissa ETLAn kirjastosta tai ao. tutkijalta. Papers in this series are reports on preliminary research results and on studies in progress; they can be obtained, on request, by the author's permission.
