GM food opinion survey

We are students of a course in world economy and agriculture at the Czech University of Life Sciences in Prague. We conduct a survey about the opinions of people regarding GMO (genetically modified organisms) in agricultural and food production. We would like to ask you to fill the questionnaire and to help to make our investigation more realistic. This short questionnaire about GM crops and food just takes you about five minutes. All collected data are anonymous and will be kept confidential and we will only publish aggregated results. We would be grateful for your opinion and time!
