SOEP-Core – 2016: Mother and Child (Newborns, with Reference to Variables)

SOEP Group
Running since 1984, the German Socio-Economic Panel study (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey’s data collection and data processing. The SOEP Survey Papers is comprised of the following series:
Series A – Survey Instruments (Erhebungsinstrumente)
Series B – Survey Reports (Methodenberichte)
Series C – Data Documentation (Datendokumentationen)
Series D – Variable Descriptions and Coding
Series E – SOEPmonitors
Series F – SOEP Newsletters
Series G – General Issues and Teaching Materials
The SOEP Survey Papers are available at http://www.diw.de/soepsurveypapers

The variable names mentioned in this document belong to a collection of datasets, which is released with doi:10.5684/soep.v34.
Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

Here, in addition to the question number, question text, interviewer instructions, and answer options, you find printed in green the file name and the variable name with the variable label, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The routing by filters is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].
Congratulations on your newborn child! The next generation is particularly important for “Living in Germany”. This short questionnaire is about children, they were born in 2015 or 2016. The questions refer to your personal experiences and the development of your newborn child. The questionnaires are only for mothers, because the questions are about pregnancy. Your participation is entirely voluntary. We therefore cordially request that you allow our staff member to interview you - or you fill out the questionnaire independently.

Before handing in the questionnaire, please enter in accordance with the address log:
