SOEP Group

Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)

Series B – Survey Reports (Methodenberichte)

Series C – Data Documentation (Datendokumentationen)

Series D – Variable Descriptions and Coding

Series E – SOEPmonitors

Series F – SOEP Newsletters

Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveyspapers>

## Reading Aid

This representation of the questionnaire contains the same informations as the portal `paneldata.org`.

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form `2 @ Q73`. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].

**Intro** The questions contains in this questionnaire are for all household members who were born in or before 1998.

Your participation is voluntary, but the scientific relevance of this study depends crucially on the participation of every member of every household.

We therefore cordially request that you either

-allow our staff member to interview you

or

-carefully fill out this questionnaire yourself.

**178A** We have prepared a little test for you, which is called “Signs and numbers”. This exercise you can practice before. Please consider this row

*Turn the laptop that way, so the interviewee can also look at the screen.*

In this exercise there is for each number for 1 to 9 a certain sign assigned (see row above). The task is to type the right numbers for each sign, and moreover as fast as possible.

*Should the participation in this test be impossible for important reasons (e.g. visual impairment), you can stop this test here.*

start test

Do not conduct test, because

**178B** Here we have an example for a solution:

**178C**

*Please show the interviewee, how the numerical entry works with the keys from 1 to 9 and one can forward the page using the enter key.*

*(Regarding our attempts we could yield the fastest result by using the left hand for typing in the numbers and the right hand for using the enter key.)*

*Please observe the whole process, so you can help in case of problems with the entry. Should this occur, please take a note after the test!*

*In no case influence the interviewee regarding the recognition of signs.*

*Please hand over the laptop to the interviewee now.*

You can now get familiar with the test with the help of some examples.

**178D** What number belongs to that sign? Sign: Number:

*Entry number and then speedy to the next page!*

- |   |   |
|---|---|
| 1 | 1 |
| 2 | 2 |
| 3 | 3 |
| 4 | 4 |
| 5 | 5 |
| 6 | 6 |
| 7 | 7 |
| 8 | 8 |
| 9 | 9 |

**178E** Thank you, that was an example. Now the real task follows. You have 1 1/2 minutes.  
Can we start?

*The test is constructed that way, so the interviewee can type in the numbers in person.*

*Should this not be possible for any reasons, the entry can be made by the interviewer as an exception.*

*The test then changes to the effect, that the interviewee has to tell the interviewer the number and the interviewer types in.*

Can we start?

Yes, start (respondent types him-/herself)

Yes start (Interviewer types in as an exception)

**178F** The 90 seconds are expired.

You have typed in totally ... signs, among ... were right.

Thank you very much, the tests are finished now.

For the further survey the interviewer takes over the entry again.

## intro1 Short questionnaire 2015

**179** This is the end of the individual questionnaire. Thank you for the interview! But we do have one last request. It is increasingly important for scientific research to have information about people's employment histories and to consider this data in statistical analyses. To this end, we would like to link the survey data from this interview with the social insurance data from the Institute for Employment Research (IAB). This is only possible under German data protection law with your express permission. Of course, the decision is entirely up to you. Please take a moment to read the form.
