## SOEP-Core – 2016: Early Youth (13-14-year-olds, A-L1, PAPI, with Reference to Variables)

SOEP Group

Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)

Series B – Survey Reports (Methodenberichte)

Series C – Data Documentation (Datendokumentationen)

Series D – Variable Descriptions and Coding

Series E – SOEPmonitors

Series F – SOEP Newsletters

Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveypapers>

## Reading Aid

This representation of the questionnaire contains the same informations as the portal [paneldata.org](https://paneldata.org).

The diagram shows a questionnaire form with the following elements:

- question number:** Q72
- question text:** Now we would like to know something about you personally. Were you born in Germany?
- interviewer instruction:** This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.
- answer options:**
  - Yes 1
  - No 2
  - No answer -1
- in blue: identifier for filter:** Q72;lsta1 bio l0013 born in Germany
- in blue: filter with condition:** Q72;lsta1=2
- grey bar: open or numeric answer:** Q73 What country were you born in? Please enter the current name!
- in green:** dataset name (Q73;lsta2), variable name (bio), variable label (l0016 Country Of Birth)

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].

**Intro1** This questionnaire is addressed to young persons in the household, who were born in 2002 and who participate in the survey for the first time.

Your cooperation is voluntary. The scientific validity of this survey depends crucially on the participation of every member of every household.

Therefore we kindly ask all students of this age:

- To allow our representative to carry out this interview
- or to fill out the questionnaire carefully yourself

**Intro2** At first we kindly ask you, as parents or legal guardians to give your permission to the survey of your child, who is stated below.

*In the end of the questionnaire the interviewer will confirm that the interview wasn't started until you gave your approval!*

*Should the survey be exercised in the absence of an interviewer, you give your approval by handing out the questionnaire to your child!*

*The student should be given the possibility to answer the questions without any influence of his/her parents!*

**0** Before handing in the questionnaire, please enter in accordance with the address log:
