SOEP-Core – 2018: Catch-up Individual (with Reference to Variables)

SOEP Group

Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing.

The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)

Series B – Survey Reports (Methodenberichte)

Series C – Data Documentation (Datendokumentationen)

Series D – Variable Descriptions and Coding

Series E – SOEPmonitors

Series F – SOEP Newsletters

Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveypapers>

Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

The diagram illustrates the structure of a questionnaire entry. It shows two questions, Q72 and Q73, with their respective text, instructions, and answer options. Below each question, variables are listed with their identifiers, dataset names, and labels. A legend explains the color coding for these identifiers.

Question	Text	Options	Variables
Q72	Now we would like to know something about you personally. Were you born in Germany? <i>This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.</i>	Yes (1) No (2) No answer (-1)	Q72:lsta1 bio I0013 born in Germany
Q73	What country were you born in? <i>Please enter the current name!</i>		Q73:lsta2 bio I0016 Country Of Birth

Legend for Green Text:
 in green: dataset name, variable name, variable label

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

Intro Our scientific investigation is most of all about developments in the family situation and in professional occupational areas. Therefore it is important that some information are available for every year. This short additional questionnaire is for persons who did not participate in the survey last year. Please help us to fill the gaps. Thank you very much!

1 Please remember once again 2016.

We have illustrated here a sort of calendar. On the left stand, what you could have been in 2016.

Please go through that list and state all months when you have been for example employed, unemployed etc.

Please mind that there has to be a statement for every month! For unemployment, even if it was shorter than a month, please mark the relevant month.
