SOEP-IS 2019–INNO: Variables from the Innovation Modules

SOEP-IS Group

Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)
Series B – Survey Reports (Methodenberichte)
Series C – Data Documentation (Datendokumentationen)
Series D – Variable Descriptions and Coding
Series E – SOEPmonitors
Series F – SOEP Newsletters
Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveypapers>

vrl101 – Reservation wage per month

? After we have talked about fair income for now, we are interested in what do you expect to be a realistic gross monthly salary. Suppose you had to search for a full-time job next month. What do you think would be a realistic gross monthly salary for 40 hours of work per week, considering your qualifications and your experience?

Text, if there were no questions regarding justice of income: Now, we are interested in what do you expect to be a realistic gross monthly salary. Thus we mean this salary you expect from an employer without any deduction of taxes or levies. Suppose you had to search for a full-time job next month. What do you think would be a realistic gross monthly salary for 40 hours of work per week, considering your qualifications and your experience? // About ... euros per month (*from: soep-is/soep-is-2013-f/Q281:vrl101[1919]*)

vr102 – Reservation wage don't know

? After we have talked about fair income for now, we are interested in what do you expect to be a realistic gross monthly salary. Suppose you had to search for a full-time job next month. What do you think would be a realistic gross monthly salary for 40 hours of work per week, considering your qualifications and your experience?

Text, if there were no questions regarding justice of income: Now, we are interested in what do you expect to be a realistic gross monthly salary. Thus we mean this salary you expect from an employer without any deduction of taxes or levies. Suppose you had to search for a full-time job next month. What do you think would be a realistic gross monthly salary for 40 hours of work per week, considering your qualifications and your experience? // Don't know

hapi1 – Current Satisfaction

? How would you rate the ideal condition of happiness for yourself on 0-10 scale? If you chose 10, it would mean that your ideal condition is “a state in which you feel only happiness”, a score of 5 would mean that your ideal condition is “the situation where happiness is 50% and unhappiness is 50%”, and a score of 0 would mean that your ideal condition is a state where you only feel unhappy. Please rate yourself on a 0-10 scale. (from: *soep-is/soep-is-2014-f/Q3251;hapi1[2663]*)

app – Happiness App Film

? Let's go on with the topic "happiness and satisfaction".

Next, I want to show you a short movie. This movie will present you an app - a program for your smartphone - which you can install later.

This free app is named "happiness in everyday life" and should support you to observe your well-being in detail. This can help you to realize what exactly makes you happy and what rather does not.

By using this app you will be part of study which collects data about the well-being of the German population. *(from: soep-is/soep-is-2015/Q4131;simapp[3293])*

ihaapp – Happiness App I

? Now I want to show you a short movie. This movie will introduce an app - a program for your smartphone - to you. You can install this app afterward.

This app "happiness in everyday life" is free and should help you to regard your well-being in detail. This way you can get more aware of what makes you happy and what does not.

By using the app you take part in a survey which collects data on the well-being of the German population.

The usage of the is distributed over the next six days and will take about 1.5 hours of your time. As an additional thank, you will receive a voucher for Amazon worth of EUR 50.

If you agree, we can start now with the movie. (*from: soep-is/soep-is-2016-f/Q479:ihaapp[16601]*)

unfe06 – Moral dilemma (trolley problem): justifiable to divert train, accept one death

? And now to an ethical question: Imagine a train approaching a group of five people who would be killed if the train was not stopped. You now have the opportunity to save these 5 people by diverting the train to another track. On this track there is another person who would die as a result. How much do you agree with the following statement? It is morally justifiable to divert the train and accept the death of a human being in order to prevent the deaths of five people. unfe11a – What should income tax rate be for: richest group (top 1%)

? We are still interested in the subject of "Taxation". What income tax rate do you think the following groups should pay? For example, if you earn EUR 10,000 and pay EUR 1,000 in income tax, the tax rate would be 10%. The richest group is the top 1%, i.e. 99% of the population are poorer. The rich group means that 1% of the population is richer and 90% of the population is poorer than this group. ifl03 – Introduction finger length measurement: informed consent

? Now to something else that may seem a little unusual to you at first glance. We would now like to measure your finger length - both the length of your ring finger and the length of your index finger. For these purposes, I also have a digital measuring slider with me in order to have an exact measurement. Before we begin: Do you agree with the measurement? We measure the length of your index and ring fingers as there is a theory that the length ratio of these two fingers can tell how high your prenatal testosterone levels were. That is, your testosterone levels in the womb before you were even born. Prenatal testosterone levels are said to be related to the length ratio of these two fingers as well as to the development of the brain and thus to various behavioral properties. With this module, the researchers are trying to find out whether this is actually the case. To ensure that your subsequent answers are not affected, we can only tell you at the end of the interview what their behavioural characteristics are. (from: *soep-is/soep-is-2018-f/Q216:ifl03[]*)

istroop02 – Stroop introduction

? This test shows you a series of COLOR WORDS (BLACK, BLUE, YELLOW, GREEN, RED). These words themselves are written in different COLORS. The color of the word matches the word (e.g. the word BLUE written in blue) and sometimes does not match (e.g. the word BLUE written in red). Your task is to specify as soon as possible the COLORS in which the word is written, whether the color matches the word or not. To do this, use the pen to click one of the choices. Try to pay attention only to the color and not to the word. Try to run the test on its own and without the help of the interviewer. For the test, please only use the pen that was handed over to you by the interviewer! At the end of the test, you can see your response times. (from: [soep-is/soep-is-2018-f/Q081:istr02\[\]](#))

istroop10 – Ishihara test introduction

? We stick to the theme of "colors". Here are 16 color circles showing numbers. Please specify the number you recognize for each circle. Please type your details into the answer box. If you can't see a number, please select the "Can't recognize a number" option. By clicking the right arrow at the top of the screen, you move to the next circle. Try to run the test on its own and without the help of the interviewer. Start the task by clicking "Next". (from: soep-is/soep-is-2018-f/Q090:istr10[])
