The authors wish to make the following corrections to this paper (Ye and Bellotti 2019):

In Section 2, the description of Dataset 1 stated that ‘only 2.5% have mortgage debt’. This should read ‘only 2.5% are refinanced credit cards (product = “R”)’. This error does not affect any other aspect of the article.

The authors would like to apologize for any inconvenience caused to the readers by these changes.
