SOEP Survey Papers
Series A – Survey Instruments (Erhebungsinstrumente)

SOEP-Core – 2020: Corona Round 7 (with Reference to Variables)

SOEP Group

Running since 1984, the German Socio-Economic Panel study (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)

Series B – Survey Reports (Methodenberichte)

Series C – Data Documentation (Datendokumentationen)

Series D – Variable Descriptions and Coding

Series E – SOEPmonitors

Series F – SOEP Newsletters

Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveyspapers>

Editors:

B6 Implementation of the interview	36

Reading Aid

This representation of the questionnaire contains the same informations as the portal `paneldata.org`.

The diagram illustrates the structure of a questionnaire question. It shows two questions, Q72 and Q73, with their respective labels and content.

Question Q72:

- question number:** Q72
- question text:** Now we would like to know something about you personally. Were you born in Germany?
- interviewer instruction:** This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.
- answer options:**
 - Yes (1)
 - No (2)
 - No answer (-1)
- in blue: identifier for filter:** Q72:lsta1
- in blue: filter with condition:** Q72:lsta1=2
- in green: dataset name, variable name, variable label:** bio I0013 born in Germany

Question Q73:

- question text:** What country were you born in?
- interviewer instruction:** Please enter the current name!
- in blue: identifier for filter:** Q73:lsta2
- in green: dataset name, variable name, variable label:** bio I0016 Country Of Birth

A grey bar is shown below the instruction for Q73, indicating an open or numeric answer.

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

Intro We are contacting you today because you have been participating in the study “Living in Germany” for several years and telling us about your living situation and about how you are doing personally. Germany’s federal government has taken measures against the coronavirus that change and severely restrict the everyday lives of people in Germany. To find out how you are dealing with these changes, we would like to interview you briefly (for about 15 minutes) by telephone today in addition to our regular survey.

B1.2 Health Behavior

8 Are you generally a person who is willing to take risks or do you try to avoid taking risks?

Please answer on a scale from 0 (not at all willing to take risks) to 10 (very willing to take risks).

Risk-averse – 0

1 1

2 2

3 3

4 4

5 5

6 6

7 7

8 8

9 9

Risk-prone – 10 10

8:prisk_n cov prisk_n Willingness to take risks: current situation

9 There are various recommendations for how to behave in everyday life and in public to prevent the spread of the novel coronavirus. If you think back over the last seven days, have you:

Please mark all answers that apply.

- avoided contact with older, elderly, or chronically ill people? 1
- avoided using public transport? 1
- refrained from travel, including travel within Germany? 1
- worn a protective mask when shopping or using public transport? 1
- avoided doing your shopping at peak shopping times? 1
- avoided large gatherings? 1
- kept your distance from people who have a cough, cold, or fever? 1
- avoided forms of physical contact such as shaking hands or hugging? 1
- washed your hands regularly (for at least 20 seconds with soap and water)? 1

9:pcoverh1	cov	pcov011a	Protection against COVID-19: avoid contact with at-risk people
9:pcoverh2	cov	pcov011b	Protection against COVID-19: avoid using public transport
9:pcoverh3	cov	pcov011c	Protection against COVID-19: refrain from travel incl. in Germany
9:pcoverh10	cov	pcov011j	Protection from COVID-19: wearing mask when shopping
9:pcoverh5	cov	pcov011e	Protection against COVID-19: avoid peak shopping hours
9:pcoverh6	cov	pcov011f	Protection against COVID-19: stay away from crowds
9:pcoverh7	cov	pcov011g	Protection against COVID-19: keep distance from people with cold symptoms
9:pcoverh8	cov	pcov011h	Protection against COVID-19: avoid physical contact
9:pcoverh9	cov	pcov011i	Protection against COVID-19: regular hand washing

9a Assume that a vaccine against the novel coronavirus has been found that is proven to have no significant side-effects. Would you get vaccinated voluntarily?

- Yes 1
- No 2
- No answer -1

9a:pcovimpf1 cov pcov073 Willingness to get vaccinated

9b Would you be in favor of mandatory coronavirus vaccination?

- Yes 1
- No 2
- No answer -1

9b:pcovimpf2 cov pcov074 Opinion on COVID-19 vaccine mandate

9b;pcovimpf2=1

9c Why would you be in favor of mandatory coronavirus vaccination?*Please mark all answers that apply.*

Because only with mandatory vaccination would enough people be vaccinated. 1

Because most people underestimate how dangerous the virus is. 1

Because mandatory vaccination would also be useful in the case of less dangerous diseases. 1

For other reasons 1

9c:pcovimpf3 cov pcov075a For vaccine mandate: only way to get enough people vaccinated

9c:pcovimpf4 cov pcov075b For vaccine mandate: most people underestimate dangerousness of the virus

9c:pcovimpf5 cov pcov075c For vaccine mandate: vaccine mandates make sense even for less dangerous diseases

9c:pcovimpf6 cov pcov075d For vaccine mandate: other reasons

9b;pcovimpf2=2

9d Why would you be opposed to mandatory coronavirus vaccination?*Please mark all answers that apply.*

Because enough people would be get vaccinated voluntarily even without mandatory vaccination. 1

Because most people overestimate how dangerous the virus is. 1

Because mandatory vaccination would also be useful in the case of less dangerous diseases. 1

For other reasons 1

9d:pcovimpf7 cov pcov076a Against vaccine mandate: enough people would get vaccinated without it

9d:pcovimpf8 cov pcov076b Against vaccine mandate: most people overestimate dangerousness of the virus

9d:pcovimpf9 cov pcov076c Against vaccine mandate: vaccine mandates never permissible

9d:pcovimpf10 cov pcov076d Against vaccine mandate: other reasons

9e A throat swab can be used to detect a coronavirus infection. The throat swab is used to take a saliva sample. Would you be willing in principle to perform such a test on yourself, free of charge to you, as part of an extension to this survey?*(Note to interviewer in the case of further questions:) This is not a declaration of consent, just a question about basic willingness to participate.*

Yes 1

No 2

No answer -1

9e:pcovrach cov pcov077 Willingness to take a throat swab test

9e;pcovrach=2

9f Why wouldn't you be willing to perform the test?

9f:pcovrachno cov pcov078 Reasons for lack of willingness to take throat swab test

9e;pcovrach=1

9g (if yes, and if there are children under 18 years of age in the household:) Would you also perform this test on your child/children?

Yes 1

No answer -1

9g:pcovrachk cov pcov079 Willingness to perform throat swab test on own children

9h A blood test can be used to determine whether you are immune to the coronavirus, for instance, because you have already been infected and recovered. This is done by taking a small drop of blood from the fingertip as a blood sample. Would you be willing to perform such a test on yourself, free of charge to you, as part of an extension to this survey?*(Note to interviewer in the case of further questions:) This is not a declaration of consent, just a question about basic willingness to participate.*

Yes 1

No 2

No answer -1

9h:pcovblut cov pcov080 Own willingness to take antibody test

9h;pcovblut=2

9i Why wouldn't you be willing to perform the test?

61:psor09	cov	plj0047	Concerns about hostility toward foreigners in Germany
61:pcovsor4	cov	pcov057d	Concerned about stock market etc.

Or what else are you concerned about?

61:psorso cov plh0043 Other concerns

nothing else

B5 Social Cohesion

B5.1 Trust and Fairness

62 What is your opinion about the following three statements?

	Agree completely	Rather agree	Rather Disagree	Totally disagree	No answer
People can generally be trusted.	<input type="text" value="1"/>	<input type="text" value="2"/>	<input type="text" value="3"/>	<input type="text" value="4"/>	<input type="text" value="-1"/>
Nowadays you can't rely on anyone.	<input type="text" value="1"/>	<input type="text" value="2"/>	<input type="text" value="3"/>	<input type="text" value="4"/>	<input type="text" value="-1"/>
When dealing with strangers, it's better to be careful before trusting them.	<input type="text" value="1"/>	<input type="text" value="2"/>	<input type="text" value="3"/>	<input type="text" value="4"/>	<input type="text" value="-1"/>

62:pbez01	cov	plh0192	People can generally be trusted.
62:pbez02	cov	plh0193	Nowadays you can't rely on anyone.
62:pbez03	cov	plh0194	When dealing with strangers, it's better to be careful before trusting them.

63 Do you believe that most people ... would use you if they had the chance, or or that they would try to be fair to you?

Would exploit you if they had the opportunity	1
or that they would try to be fair to you?	2
No answer	-1

63:pbez04 cov plh0195 Most people (tend to use you OR are fair)

64 Would you say that people usually ... try to be helpful, or that they only pursue their own interests?

Try to be helpful	1
or that they only pursue their own interests?	2
No answer	-1

64:pbez05 cov plh0196 Most people usually (try to be helpful OR pursue own interests)

B5.2 Perceptions of Social Cohesion

65 When you think about the area where you live: How strong is social cohesion there...

	Very good	Rather good	Partly good, partly bad	Rather bad	Very bad	No answer
- in general?	1	2	3	4	5	-1
- in the current situation?	1	2	3	4	5	-1

65:palgwzh cov pcov058 Social cohesion in local area in general

65:pcovwzh cov pcov059 Social cohesion in local area in current situation

66 What is your opinion about the following statements?

	Does not apply at all	Does not apply somewhat	Partly applies, partly not	Applies somewhat	Applies perfectly	No answer
- The way people are dealing with the coronavirus shows that we can rely on social cohesion in Germany.	1	2	3	4	5	-1
- People with high incomes and higher-status professions will have better chances of protecting themselves from contracting the coronavirus.	1	2	3	4	5	-1
- Every resident of Germany has the same chances of receiving the necessary treatment.	1	2	3	4	5	-1

- 66:pcovzh1 cov pcov060a We can rely on social cohesion
- 66:pcovzh3 cov pcov060c People with better incomes/professions will have better chances of protecting themselves
- 66:pcovzh4 cov pcov060d Everyone in Germany has the same chances of getting the required care

67 And with regard to the restrictions on public life to curb the spread of the coronavirus: What is your opinion about the following statements?

	Does not apply at all	Does not apply somewhat	Partly applies, partly not	Applies somewhat	Applies perfectly	No answer
- I accept personal restrictions to help my fellow human beings.	1	2	3	4	5	-1
- People in Germany accept personal restrictions to help their fellow human beings.	1	2	3	4	5	-1
- If it were up to you personally: People should accept personal restrictions in the future to help their fellow human beings.	1	2	3	4	5	-1
- And leaving your own desires aside: People will probably accept personal restrictions to help their fellow human beings.	1	2	3	4	5	-1

- 67:pcovpe1 cov pcov061a Personal restrictions to help others: I accept
- 67:pcovpe2 cov pcov061b Personal restrictions to help others: people in Germany accept
- 67:pcovpe3 cov pcov061c Personal restrictions to help others: people in Germany should accept
- 67:pcovpe4 cov pcov061d Personal restrictions to help others: people in Germany will accept

67a What is your opinion on the following statements? Please state whether you strongly disagree, partly disagree, partly disagree and partly agree, partly agree, or strongly agree.

	disagree completely	disagree somewhat	partly agree, partly disagree	agree somewhat	agree completely	No answer
- There are secret organizations that are having a major influence on political decisions during the corona crisis.	1	2	3	4	5	-1
- Politicians and other leaders are just puppets of the powers behind them.	1	2	3	4	5	-1
- The media and politicians are in cahoots.	1	2	3	4	5	-1
- I trust my feelings about how to deal with corona more than I trust the so-called experts.	1	2	3	4	5	-1
- During the corona crisis, the media and politicians are deliberately hiding certain information.	1	2	3	4	5	-1

- 67a:pcovt1 cov pcov072a Secret organizations in COVID-19 crisis with major political influence
- 67a:pcovt2 cov pcov072b Politicians and other leaders puppets of the powers behind them
- 67a:pcovt3 cov pcov072c The media and politicians are in cahoots
- 67a:pcovt4 cov pcov072d I trust my feelings about how to deal with COVID-19 more than experts
- 67a:pcovt5 cov pcov072e Media and politicians hiding information during the COVID-19 crisis

B5.3 Life Satisfaction

68 In conclusion, we would like to ask you how satisfied you are with your life overall. How satisfied are you with your life in the current situation, all things considered?

Please answer on a scale from 0 (completely dissatisfied) to 10 (completely satisfied).
